Powering Rail, Simplifying Maintenance

Innovative Solutions

Provides cutting-edge electronic systems and repair services for the rail industry, ensuring reliability and efficiency.

Decades of Experience

Specializes in locomotive electronics, data management, and control technologies since 1957.

Customer-Focused

Partners with transit and freight operators to extend equipment life, reduce downtime, and streamline maintenance.

Enabling Technologies

Precision Navigation Module (PNM)

Locomotive Network Interface (LNI)

Locomotive Communication Router (LCR)

Real-Time Kinematic (RTK) Base Station
